

## **GTDU2C - U-BOLT GROUNDING CLAMP (2 CONDUCTORS)**

GTDU2C-3/8"-IPS-4-2/0

## Description

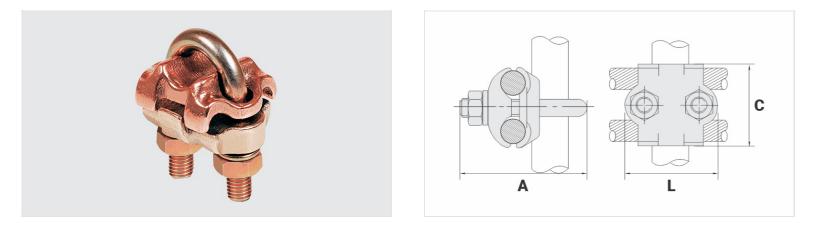

**Purpose:** Connection between ground rod to cable or IPS tube-cable. Suitable for COPPERSTEEL or copper cables.

**Characteristics:** Tightening connection. High electrical conductivity and corrosion resistant. It allows you to connect two parallel cables.

**Application:** Grounding systems in general (power distribution systems, grounding grids, residential, building and industrial grounding, grounding in telecommunication networks, grounding in substations).

Material: Copper alloy clamp, fittings in copper alloy or electrolytic zinc plated steel.

Application Tool: Spanner set or open-ended wrench.

## Datasheet

| Conductor                            |             |
|--------------------------------------|-------------|
| AWG/MCM                              | 4 - 2/0     |
| mm²                                  | 16 - 70     |
| Ground Rod Nominal Diameter (inches) | 5/8" - 3/4" |
| IPS Tube                             | 3/8"        |
| Accessory Material                   | AÇO ZINCADO |
| Dimensions                           |             |
| L                                    | 53,0        |
| A                                    |             |
| C                                    | 44,0        |
| Parafuso "U"                         | M10         |
| Figura                               | 2           |
| Package                              |             |
| Qtd / Emb                            | 10          |
| Peso Unit. (g)                       | 322,00      |
|                                      |             |
