

SACG - CABLE TO GROUND ROD COMPRESSION GROUNDING SYSTEM

SACG-1258-70

Description

Purpose: Connection between ground rod to cable and cable to cable. Suitable for COPPERSTEEL and copper wires and cables.

Characteristics: Compression connection. High resistance to corrosion. It can be buried directly into the ground or concrete.

Application: Grounding systems in general (power distribution systems, grounding grids, residential, building and industrial grounding), grounding in telecommunication networks, grounding in substations).

Material: Copper alloy, supplied with antioxidant compound INTELTROX-Cu.
