

CCO - COMPRESSION GROUNDING CONNECTOR

CCO-50-50

Description

Purpose: Cable to cable splice or branch. Suitable for COPPERSTEEL and copper cables.

Characteristics: Compression connection. High resistance to corrosion. It can be buried directly into the ground or concrete.

Application: Grounding systems in general (power distribution systems, grounding grids, residential, building and industrial grounding), grounding in telecommunication networks, grounding in substations).

Material: Copper alloy, supplied with antioxidant compound INTELTROX-Cu.
