

TBB - BIMETALLIC TERMINAL FOR TERMINAL BLOCK

TBB-35-30

Description

Purpose: Bimetallic termination cable-strip (aluminum cable to copper block). Connection on terminal block, transformer bushing, circuit breakers.

Characteristics: Compression connection. Its construction (copper pin and aluminum barrel) prevents galvanic corrosion.

Applications: Power distribution lines.

Material: Electrolytic copper pin and extruded aluminum barrel. Supplied with INTELTROX antioxidant compound.

Note: For installation in regions of aggressive climate, it is recommended to use thermoset insulation or self-fusing tape in the connection.
