

CAEP - ALUMINUM WEDGE TYPE CONNECTOR WITH STIRRUP (PROTECTED LINE MODEL)

CAEP-103

Description

Purpose: Connection with copper, aluminum CA and CAA cables. Enables ing of a hotline clamp in 15kV protected networks.

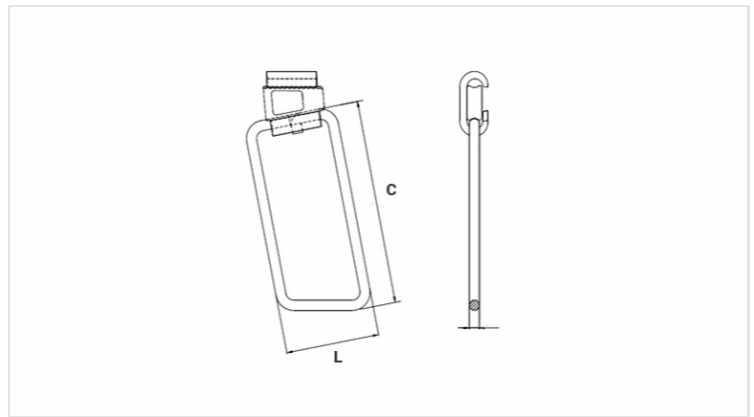

Characteristics: Spring system connection (permanent tightening). High electrical conductivity and corrosion resistance.

Application: Power distribution lines.

Material: Aluminum alloy body and wedge and stirrup in electrolytic copper. Supplied with antioxide compound INTELTROX.

Finishing (Stirrup): Tin plated.

Application Tool: Impact tool with cartridge for wedge connector.
