

AEB - CAST ALUMINUM CONNECTOR WITH STIRRUP

AEB-88-2

Description

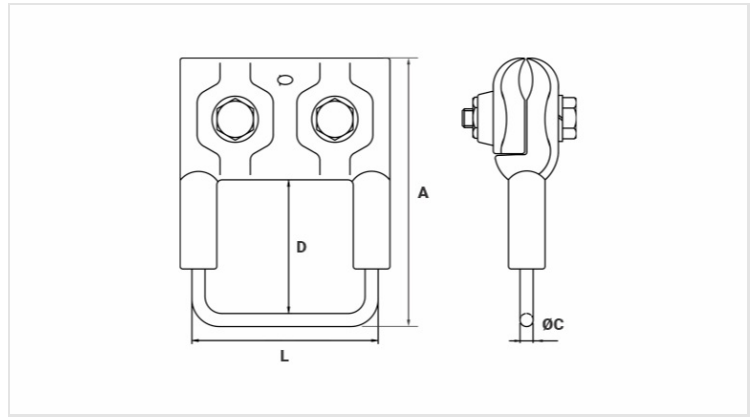

Purpose: Connection with CA, CAA aluminum cables. Enables ing of a hotline clamp.

Characteristics: Tightening connection. High electrical conductivity and corrosion resistance.

Application: Power distribution lines.

Material: Cast aluminum alloy body and stirrup in electrolytic copper.

Application Tool: Star or open ended wrench. Finishing (Stirrup): Tin plated.

Datasheet

Conductors

Principal (AWG/MCM)	2/0 - 477
Tipo do Condutor	CA / CAA
Estribo (AWG)	4/0

Dimensions (mm)

L	84,5
A	133,0
Ø C	1,0
D	65,0

Screw 2x M10

Package

Qtd / Emb	8
Peso Unit. (g)	698,00
