

ACB / ACH / ACB-E - STIRRUPS FOR CONNECTORS

ACB-60 (PADRÃO CEMIG/CPFL)

Description

- Purpose:** Conection between CA, CAA aluminum or copper cables with wiede, compression and hotline clamp connector.
- Characteristics:** Connection can be by tightening, compression or spring system. High electrical conductivity and corrosion resistance. Stirrups designed for perfect adaptation with connectors / clamps such as CAH, CAC, CDC, CADC, GLV, among others.
- Application:** Power distribution lines.
- Material:** Electrolytic copper.
- Finish:** Tin plated
