

CDP - PIERCING CONNECTOR

CDP-240-240

Description

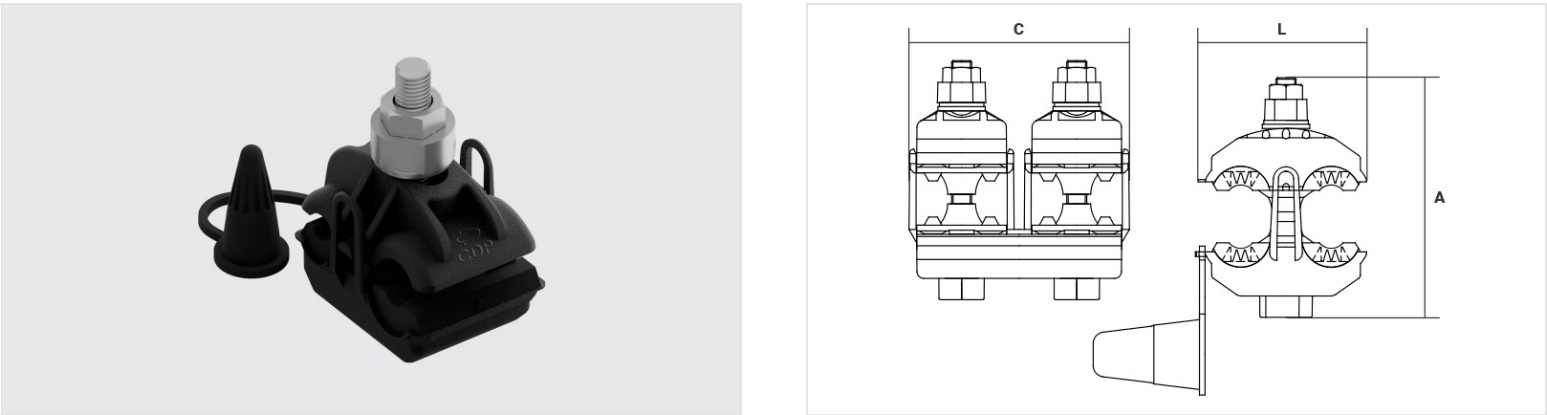

**Purpose:** Tap of Insulated Cables, suitable for combinations aluminum to aluminum, aluminum to copper and copper to copper in overhead power distribution lines (low voltage up to 1kV).

**Characteristics:** Insulation piercing connection (no stripping of cable insulation required). Used with 0.6/1kV XLPE/PE insulated aluminum cables or 450/750v PVC insulated cables (without cover). It has a fuse nut to ensure a perfect connection. It has elastomeric rubbers, making the connector watertight.

**Application:** Overhead insulated power distribution lines.

**Material:** Polymer connector resistant to weather and U.V. rays. Tin plated copper contacts.

**Application Tool:** Star or socket wrench.
