

**PFB - BIMETALLIC SPLIT BOLT CONNECTOR WITH SPACER**

PFB-185

**Description**

**Purpose:** Tap or splice (low traction) for COPPERSTEEL, copper or aluminum cables. Suitable for copper to copper, copper to aluminum and aluminum to copper connections.

**Characteristics:** Tightening connection. High electrical conductivity and corrosion resistance. Allows bimetallic connection.

**Application:** Power distribution lines and grounding in general.

**Material:** Body in eletrolytic copper, nut, rider and spacer in copper alloy.

**Finish:** Tin plated.

**Application Tool:** Box open-ended or monkey wrenches.
